¹The CCNs with a "B" in the 4th position indicate a campus of a MCH located in a different CBSA from the main provider. The campus's wages and hours are allocated to the CBSA of its physical location. The wage index reflects the CBSA of its location, or the MGCRB reclassified wage index, if applicable. The case-mix index and average hourly wages are not separated by campus; they reflect the provider as a whole.

²A blank indicates FY 2019 MedPAR (which is used for the FY 2022 rates) was not available for the provider, and therefore, this provider was not included in the rate setting process.

³This is the hospital's FY 2022 wage index with all applicable adjustments.

⁴A blank indicates wage data not available for the CCN for the fiscal year or all three fiscal years.

⁵Hospitals cannot receive the out-migration adjustment if they are reclassified under section 1886(d)(10) of the Act or redesignated under section 1886(d)(8)(B) of the Act or redesignated under section 1886(d)(8)(E) of the Act.

⁶For FY 2022 we are continuing our policy from FY 2020 to increase the wage index for hospitals with a wage index value below the 25th percentile wage index. Based on the data for the proposed rule, the proposed 25th percentile wage index value across all hospitals is 0.8418. The

⁷Hospitals will be paid the reclassified wage index based on the CBSA in this column. If this column is blank, the hospital will be paid the geographic wage index based on the CBSA in column K. Hospital wage indexes are subject to the rules of the rural wage index and rural floor.

⁸Section 9831(a) of The American Rescue Plan Act of 2021 (Pub. L. 117-2) enacted on March 11, 2021 contains provisions affecting the imputed floor. There was not sufficient time available to incorporate the recently enacted statutory provision providing for the imputed floor adjustment in a non-budget neutral manner beginning in FY 2022 into the ratesetting, calculation of the wage index and tables in this proposed rule. In the FY 2022 final rule, we plan on including the imputed floor adjustment into ratesetting, calculation of the wage index and tables. We refer the reader to section III. G. 2 of the preamble of this proposed rule for a complete discussion regarding the imputed floor.
